

Lets face it, Premature Ejection is embarrassing, and disappointing. **LAST-LONGER** is the only known cure that has been proven to have a 100% success rate. And best of all the results are usually perminant. So once you have been on **LAST-LONGER** for even just 3 months, you will probably find that you will be cured of the problem. In some cases repeate doses are required.

LAST LONGER is a non prescription, 100% natural herbal supplement that cures premature ejaculation and is suitable for men of all ages.

How it Works:

LAST LONGER acts on the hypothalamic sensors of the brain that regulate sexual excitement. By lowering the hyper activity of the sexual sensors, “**LAST LONGER**” helps you to prolong the penetration time and delays of ejaculation by up to 20 mins.

Dosage:

The usual dosage is 2 pills daily for 6 months, and you should be permanently cured of the problem. Take the pills 30 mins after food, with a large glass of water. Some patients may requires a repeat course. The effects from taking last longer are experienced within the 1st week. During the course, especially the first 3 months it is important to be very disciplined and not miss any dose.

Missed Dose:

If you miss a dose, take it as soon as you remember. If it is near the time of the next dose, skip the missed dose and resume your usual dosing schedule.

Side Effects:

LAST LONGER has no known side effects. If you have any serious health concerns, or taking other medications, you should review the ingredients with your doctor.

DO NOT TAKE MORE THAN 2 PILLS IN 24hr.
